

## **Dr Sally J Davis – Patent Attorney, Davies Collison Cave**

---

Sally J. Davis is a Patent Attorney and Lawyer in the biotechnology group at Davies Collison Cave. Sally specialises in the preparation and prosecution of patent applications in all areas of biotechnology, particularly molecular biology, cell biology, plant genetics, medicinal cannabis, cancer, precision medicine and diagnostics.

She assists clients in developing patent strategies that align with their commercial objectives to maximise the value of patent portfolios in international and domestic markets. She also provides technical assistance in contentious and non-contentious patent disputes.
